

Wisconsin's No-Call List has provided my household with only "friendly" calls. The elimination of the irritation of having to politely reject the offers being made or summoned has been a great relief for me and my family. Please do not be affected by Big Business and consider the concerns of Wisconsin's public community. The majority of our citizens prefer to keep Wisconsin's No-Call List format in place. Thank you for this opportunity to send my strong desire to continue Wisconsin's No-Call list as it stands or make it more effective in the future.
